

## View Class Mastery by Standards

The **Mastery by Standards report** displays data that represents how your class mastered state and national standards and how individual students mastered state and national standards across assignments over time. You can also get more information from the data that will help you understand which assessments contributed to the mastery data displayed for each student.

### To view your Mastery by Standards:

1. Click **DATA** in the menu bar at the top of the page. A listing of all your classes and groups that have data displays on the **Select a Class** page.
2. On the **Select a Class** page, select which class, or group in which you want to view mastery data. Then click the **Class Mastery by standard** link under the class name. The **Mastery of Standards report** opens.

- When the **Class Mastery Report** opens, you can view many aspects of your class and student mastery of the material and how it aligned to standards. The table columns are labeled with specific standard numbers and each student has a ratio representing the number of questions for the specified standard that the student answered correctly over the number of questions for the specified standard on the test(s).

You can get help interpreting the data on the page by clicking the link **Help me interpret this data** that appears located near the top of the page.

**Interpreting Class Mastery by Standard (1 of 4)**  
 This report shows the scores by standard from assessments that count toward mastery. The scores show the results across all those assessments taken so far this school year, so a student's mastery status on a standard may change as new assessments are submitted.

Mastery for 7 of 10 standards

Mastery for this class [% students mastered]

Name	% Mastered	S1	S2	S3	S4	S5	S6	S7
Adams, Andy	100%	30/30	30/30	30/30	30/30	30/30	30/30	30/30
Baker, Butcher	86%	11/22	11/22	30/30	24/30	30/30	30/30	11/22
Caldon, Cary	71%	11/22	30/30	24/30	30/30	11/22	11/22	11/22
Davis, Daryl	93%	24/30	30/30	30/30	30/30	24/30	30/30	11/22

You can also export the data by selecting the **Export data** link located near the top of the page. Your data will be exported to a CSV file that you can open with Excel or other spread sheet programs.

If the standards are in multiple standard libraries, you will see a grade drop-down box and you can select the grade for which you want to see the standard mastery.

- By drilling down into the data you can find much information. View the descriptions of the standards that were involved with the questions, and the average percent correct that your class achieved. There are also links to **teacher resources** for each standard and you can assign these resources to your students, right from the page.
